

Equate Ed Platform Feature Brief: Where Programs Align and Candidates Thrive

December 2025

Built for Programs. Designed for People

Equate Ed is built specifically for educator preparation programs—including residencies, apprenticeships, and Grow Your Own models. Equate Ed replaces fragmented spreadsheets and disconnected systems with one clear, human-centered platform. By connecting educator's placements, coursework, competencies, assessments, and coaching in one system, Equate Ed gives program leaders real-time insight into candidate progress—while reducing administrative burden and strengthening long-term program sustainability.

Why Equate Ed?

Purpose-Built for Educator Preparation
Designed around real residency and apprenticeship workflows—not generic academic or HR systems.

Multi-Partner by Design
Connects universities, districts, mentors, coaches, and candidates in one shared system.

Day-to-Day Insight + Big-Picture Oversight
Combines real-time candidate data with program-level reporting for accreditation and improvement.

Core Capabilities

- Candidate centered data collection
- Placements, hours, and wage tracking
- Competency rubrics and evidence collection
- Coaching conversations and artifacts
- Assessment and certification tracking
- Program dashboards and reporting

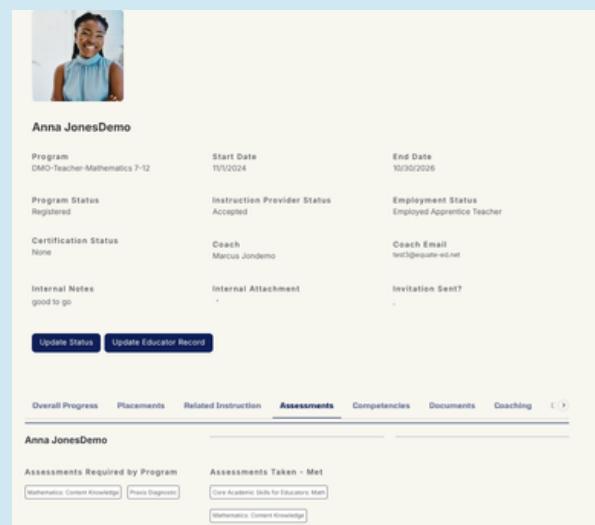

Clear systems.
Better teacher preparation.

Supporting High-Quality Programs

Candidate Growth & Support

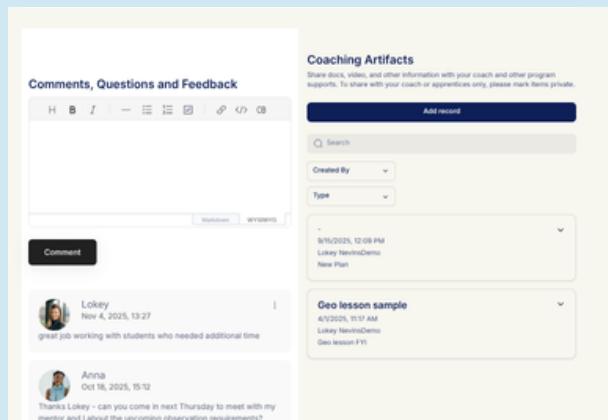

Track each candidate's journey across placements, coursework, competencies, assessments, and coaching—ensuring timely support and clear progress toward completion.

>>> Stronger retention, clearer pathways, better candidate experiences.

The screenshot shows a candidate profile for Anna JonesDemo. It includes a photo, basic information like Start Date (10/1/2024) and End Date (10/30/2026), and a tab navigation bar with Overall Progress, Placements, Related Instruction, Assessments (selected), Competencies, Documents, and Coaching.

Under the Assessments tab, it shows assessments required by program (Mathematics Content Knowledge, Prior Diagnostic) and taken (Core Academic Skills for Educators: Math, Mathematics: Content Knowledge).

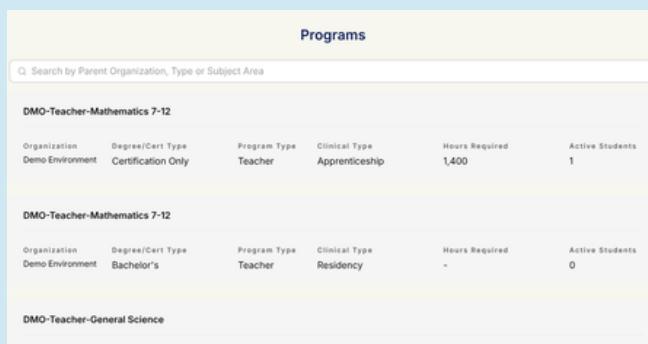

The screenshot shows a comments, questions, and feedback section. It includes a rich text editor, a search bar, and a list of comments from users like Loleky and Anna. The interface is designed for sharing documents, videos, and other information with coaches and program supports.

Program Oversight & Accreditation Readiness

View real-time progress across cohorts, programs, and partners with dashboards and reports coming soon.

>>> Reduced risk, stronger evidence, less stress during reviews.

The screenshot shows a search bar for programs and a list of three programs: DMO-Teacher-Mathematics 7-12, DMO-Teacher-Mathematics 7-12, and DMO-Teacher-General Science. Each program row includes details like Organization, Degree/Cert Type, Program Type, Clinical Type, Hours Required, and Active Students.

Mentor & Coach Collaboration

Centralize observations, feedback, resources, and coaching conversations using shared rubrics and short-cycle improvement tools.

>>> More consistent mentoring and higher-quality clinical practice.

District Placement Information for Active Candidates

Active Candidate Counts by School District

See an overview of active candidates by school district and the district administrators email in case you need to connect.

Name	# Placements	Admin Email
Demo LEA	1	marlene@equate-ed.com
New Haven School District	1	
Capital School District	1	
Andover Regional School District	1	
Abscon Public Schools	1	

Active Candidates On The Job Status

Flexible, Modular Design

Configure programs, placements, rubrics, and partners without heavy IT lift. Start with a focused pilot and scale as programs grow.

>>> A system that grows with your goals—not one you outgrow.
